Suggested Minimum Payments to Repay an Unemployment Insurance Benefit Overpayment Obligation

If you are offering a voluntary repayment plan or a wage assignment withholding agreement, use this table to look up a suggested minimum repayment (per pay period). You may also call Benefit Payment Control (BPC) at (785) 296-3609. The following schedule is calculated to pay off the overpayment balance in a reasonable period of time. A final or balloon payment amount may be larger or smaller. The final payment amount can be obtained by calling BPC at the above number. You may pay your obligation early without penalty. Your offered payment may be higher but should not be lower.
